Company Background

A. Hill & Sons Ltd

Growing since 1920

The family company of A Hill & Sons Ltd, situated on the edge of the North Yorkshire National Park was founded in 1920 and is now managed by the fourth generation of the family. The company continues to adopt the latest horticultural and business techniques and technologies, whilst retaining all the traditions of quality and customer service that are the hallmarks of the business.

Our nursery is located just outside of the picturesque market town of Stokesley. We are nationally renowned for the breathtaking variety and quality of its trees, shrubs, conifers and hedging, supplying our ever expanding customer base.

The nursery has become a centre of horticultural excellence and innovation, exemplified by our extensive trialling and development of the revolutionary Air-Pot technique. We have achieved amazing results in the growth of vigorous, healthy root systems in young trees and shrubs.

Serving the Professionals

We specialise in meeting the needs of professionals – landscapers, landscape architects, land owners, local authorities. The present family directors carry on the tradition together with a team of experienced and fully qualified horticultural workers, supported by administration, sales and marketing personnel; we have the all-round experience and expertise to meet the needs of this diverse and discerning customer base.

A key element of our success is the ability to work closely with clients, tailoring our services to meet their individual needs; providing specialist advice and supplying high quality products to each unique specification.

We are willing to visit clients to assess their needs on site and discuss how we can meet them. All of our clients, large and small, are assured of products and customer service that boasts the very best the industry can offer.

Air-Pot Grown

We have received glowing reports from clients nationwide on our ability to offer a wide range of Air-Pot grown trees and shrubs in large sizes. This revolutionary growing technique has allowed us to achieve vigorous growth to the highest standard. We are rapidly expanding this aspect of our business to ensure the benefits it offers are available to all clients.

Landscapers

We can satisfy most landscaping and large planting schemes. Depending on their project needs, landscapers can opt for trees and shrubs that are either root-balled, field or container grown.

Our team works closely with many landscapers, fulfilling their individual requirements. We are always delighted to show customers our vast and varied stocks and visitors to the nursery can take advantage of our self-selection system.

Landscape Architects

We work closely with many landscape architects during the development process of a project, priding ourselves on our extensive knowledge and experience with plants for specific locations and their uses in unique and advanced designs. When contract growing, we will ensure that stocks are available at the required specification when needed.

Land Owners

Our extensive stocks ensure we have the capacity to satisfy the varied needs of projects, both large and small. As part of our service, we supply land owners and forestry customers with a large range of quality transplants and seedlings, together with specimen trees and shrubs when required.

Local Authorities

With our sophisticated growing techniques and range of trees, shrubs and other plants, we are able to fulfil Local Authorities' schemes regardless of location. We are committed to fulfilling the needs of individual projects and working closely with clients to ensure the desired outcome is achieved to the highest standard.

Contract Growing

Our contract growing service has been developed to ensure plants are available to meet pre-determined timetables. It offers customers several major advantages:

- Delivery of the specified quality and quantity is assured, making forward planning more effective;
- Fixed prices are agreed at the beginning of the project, enabling accurate budgeting and easing cash flow.

Delivery Service

We operate a nationwide delivery service, using a combination of our own vehicles and a local reputable haulier, ensuring all deliveries meet the requirements specified by our customers. For additional flexibility, we will deliver goods on trolleys, loose or crated and deliver part-orders in instalments to meet the schedules of large landscaping projects.

Mission Statement

'Our policy is to supply high quality plants at competitive prices whilst providing customers with service of the highest standard.'
